## FABRY INTERNATIONAL NETWORK

### YOUNG ADULT WEEKEND

Fabry International Network is very committed to training the next generation of patient advocates and also providing a platform for young adults to get in contact with each other, to share their experiences and learn from each other.

Our initial plan was to invite you to a face-to-face event this year. Due to the global pandemic, we have decided not to organise a face-to-face meeting but instead plan a series of webinars in September, October and possibly November.

We plan 2 to 3 webinars where we invite you, (Fabry patients up to the age of 35) and address topics such as personal and professional development, using your skillset to improve the life of Fabry patients, mental health, challenges and best practices, how to co-operate with the pharmaceutical industry etc...

We look forward to building a strong community and hopefully we can organise a face-to-face meeting in Europe again in 2021!

We look forward to meeting you!

Do not hesitate to reach out to us if you have any questions!
